TEXT FOR WALL MAP ILLUSTRATING SCOPE OF INTERNATIONAL PROGRAM

In 1952 The Museum of Modern Art received from the Rockefeller Brothers Fund a 5-year grant with which to establish a program for international exchange in the visual arts.

In 1953 the International Council at The Museum of Modern Art, whose members are art patrons and community leaders from all parts of the United States, was formed and in 1957 began its sponsorship of the International Program. The financial contributions of the Council, the continued support by the Rockefeller Brothers Fund, and special funds raised for special projects, allow the increasing activity of this Program.

Members of all departments of The Museum of Modern Art contribute their skills and special knowledge to these exhibitions, and many individuals and other institutions within and outside the United States have given generous assistance.

This display presents a few highlights and indicates the extent of the activities of the International Program from 1952 to 1959.

498 showings of 60 exhibitions prepared by the International Program have been shown in 290 cities in 51 countries of the world during a period of 7 years.
